

Remediation Schedule

Math

Term Grad Testing –Friday, May 11. Teachers have met with students and given them specific schedules.

Regular End-of-Course Testing (Algebra I & II test on Thursday, May 24 and Geometry test on Friday, May 25):

Remediation for all 3 math subjects will be on the following Tuesdays from 3:00-4:00 pm. May 1, 8, 15, and 22. *Note that there will be no regular after school tutoring on these Tuesdays.

Charles Seidl will provide Algebra II remediation.

Diana Brown and Jodie Rutter will provide Geometry remediation.

Susan Sanderson will provide Algebra I remediation.

English (Reading SOL on Monday, May 21)

There will be English remediation available every Wednesday at 3:00. If you are struggling in English and concerned about the upcoming Reading SOL, please take advantage of this.

Science (Earth Science and Chemistry SOLs on Tuesday, May 22 and Biology on Wednesday, May 23)

Teacher have met with students who are re-testing but not currently in the SOL class to discuss remediation

The science department will hold remediation on the following Mondays from 3:00-4:00 for students identified based on 3rd quarter benchmark performance.

Dates of remediation: April 16th , April 23rd , April 30th and May 7th , May 14th .

History

Teachers have met with student who are testing during the Term Grad window and those who a re-testing on a subject to discuss remediation and have set up specific remediation schedules.

Students who are taking the US History and World History I and II SOLs may attend remediation with a member of the History Department on Wednesdays starting April 25, May 2, May 9, and May 16.

Remediation for any students qualifying for Expedited Retakes during Non-Writing testing will be determined by department and students will be contacted individually.

Additionally, students will be notified about summer remediation and testing possibilities.
